# Short-term Goals

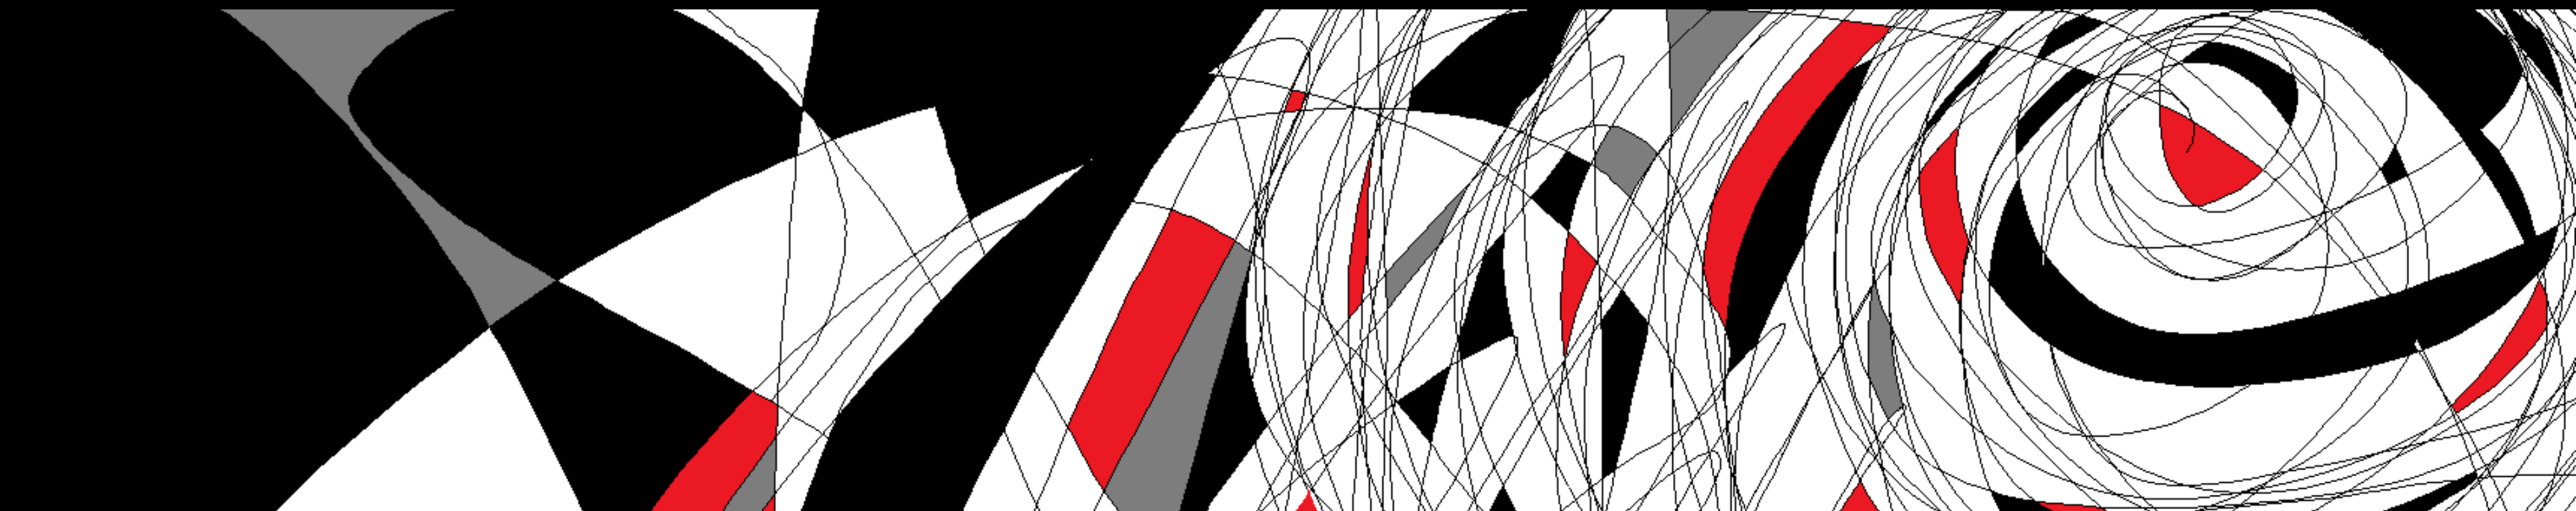

- Organize study notes more efficiently
- Learn a new language
- Make another photography portfolio
- Improve skills in composition, lighting, and framing
- Read more scientific journals
- Learn how to make liquors

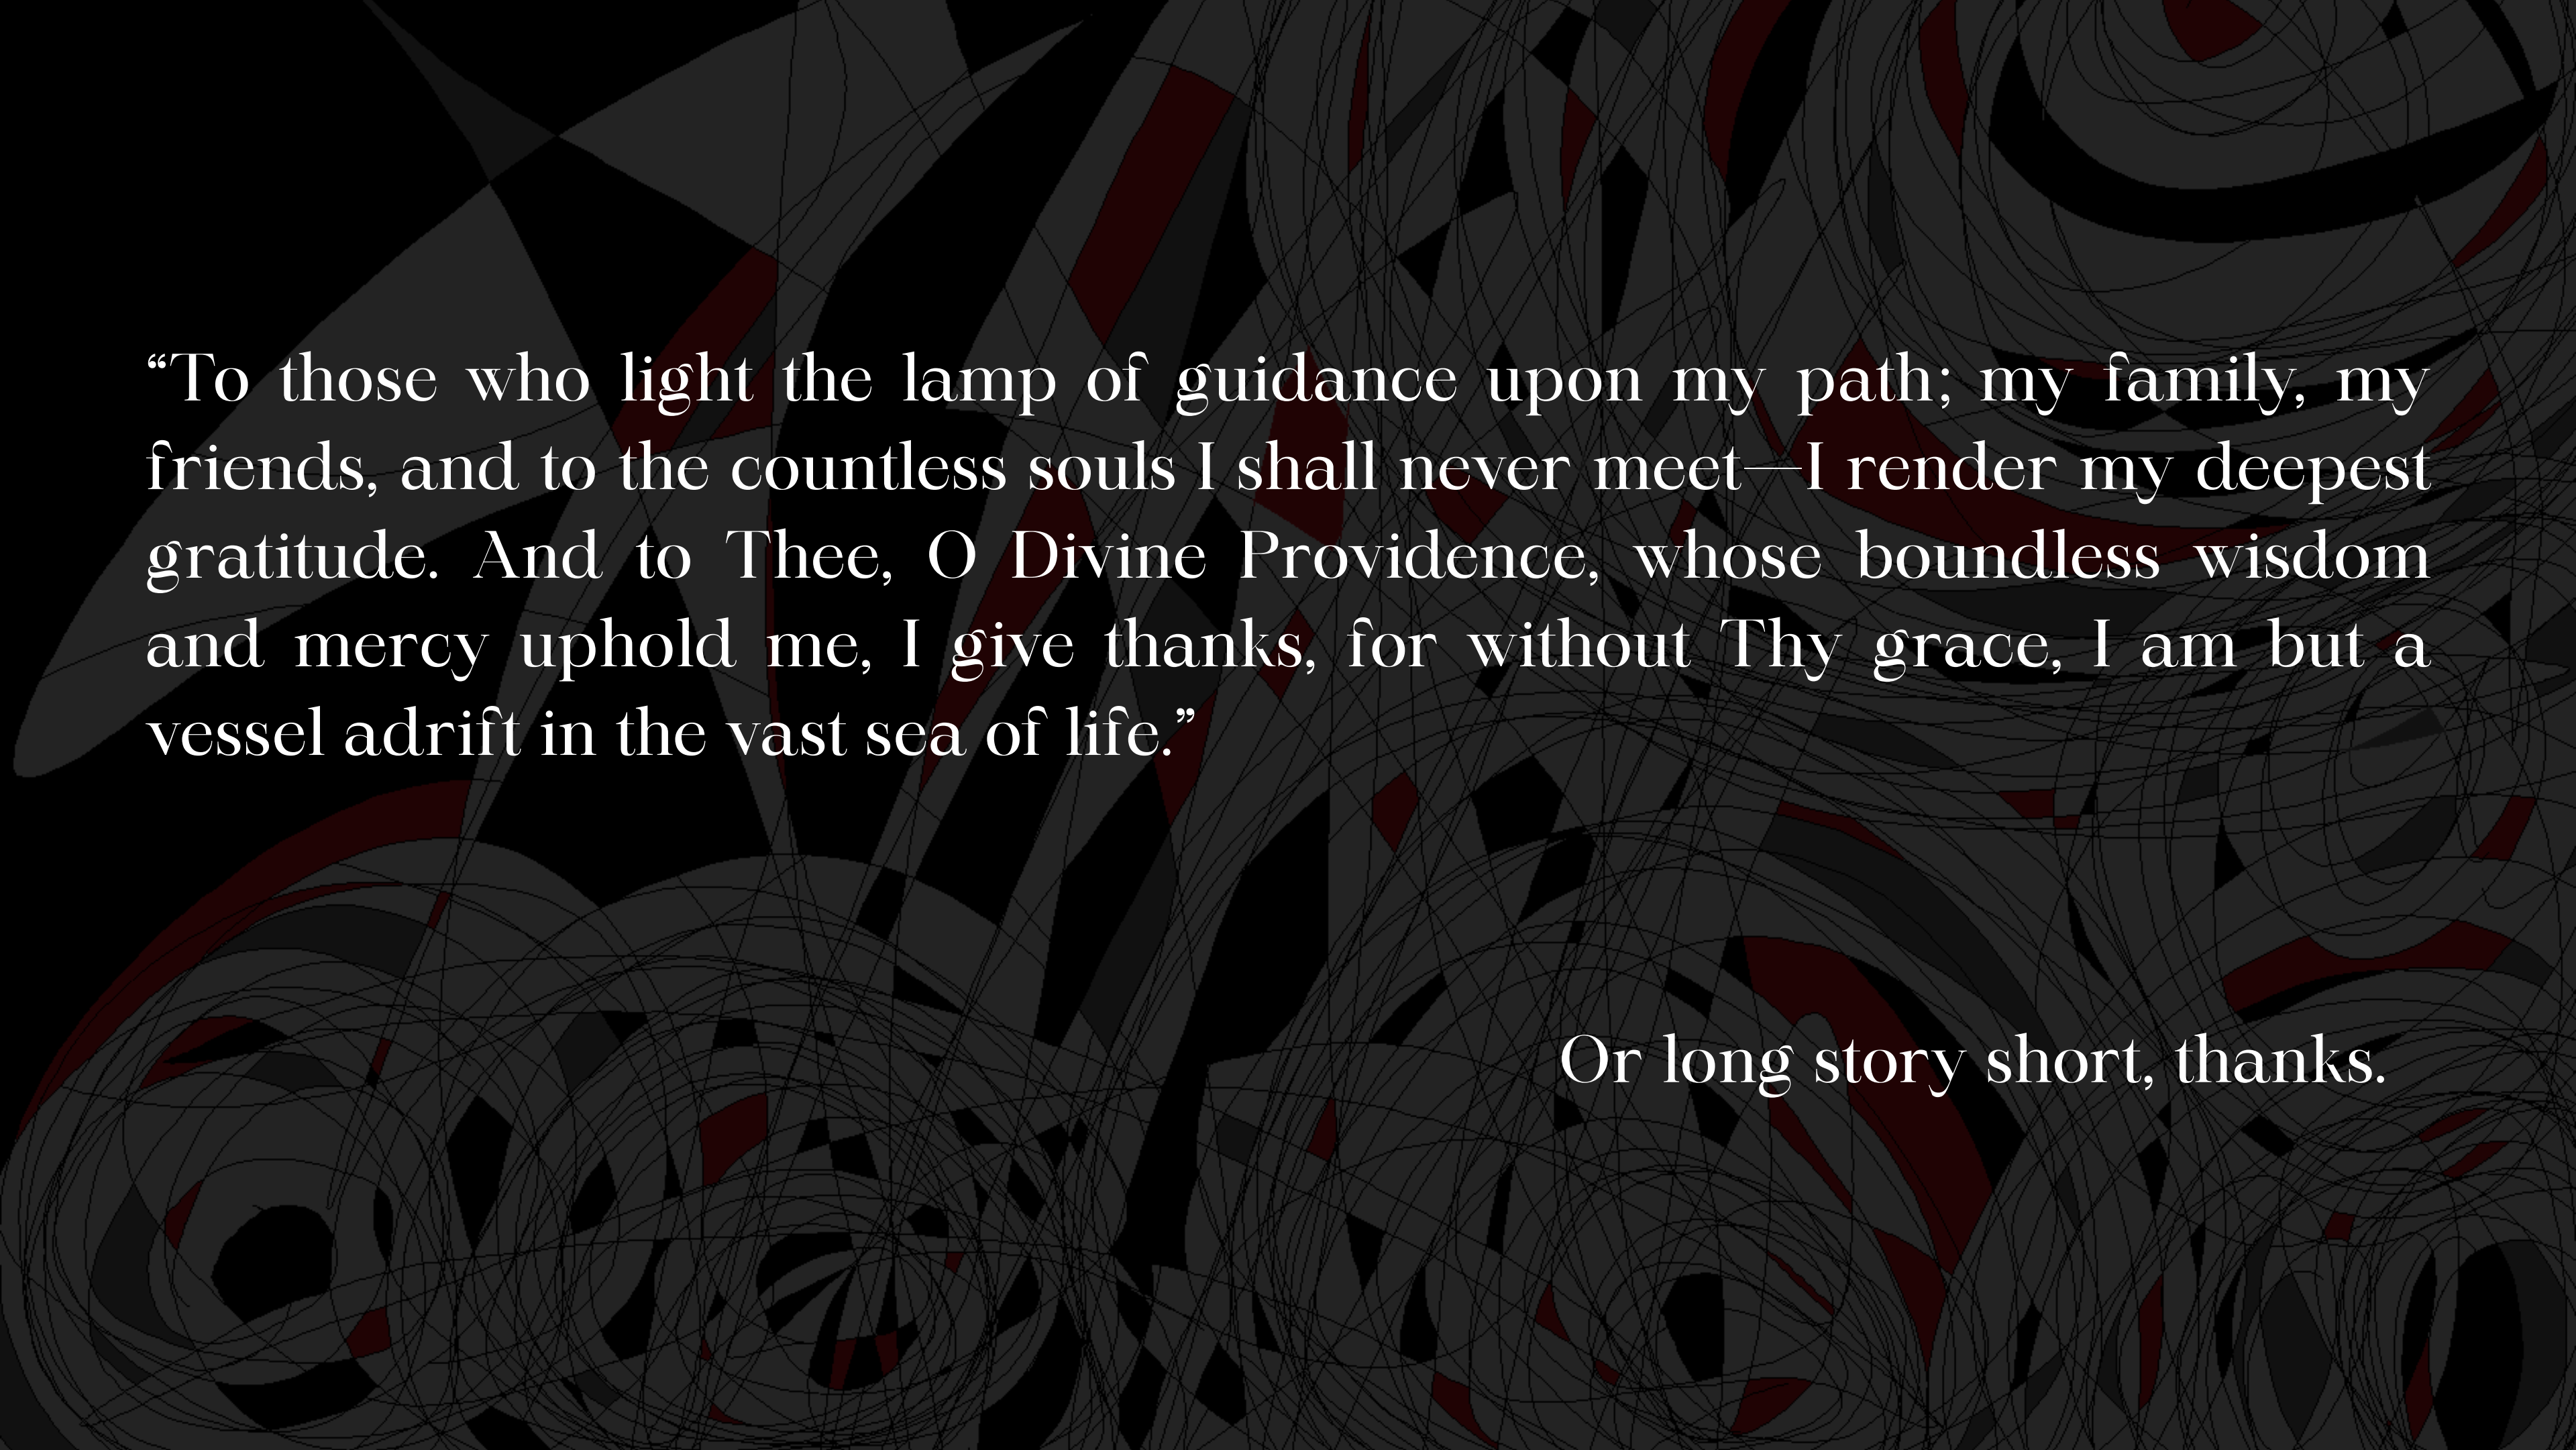

# Favorite Quote:

"Intellectual growth should commence at birth and cease only at death."

— Albert Einstein

“To those who light the lamp of guidance upon my path; my family, my friends, and to the countless souls I shall never meet—I render my deepest gratitude. And to Thee, O Divine Providence, whose boundless wisdom and mercy uphold me, I give thanks, for without Thy grace, I am but a vessel adrift in the vast sea of life.”

Or long story short, thanks.
